

BIEPA

NEXT MEETING
7pm Monday 28th March 2022

ANZAC Room Bribie RSL
99 Toorbul Street. Bongaree

GUEST SPEAKER:

Dr Janet Lanyon

Senior Lecturer

School of Biological Sciences

University of Queensland

Ecology, Marine Biology, Zoology

Dr Lanyon is a marine field biologist, marine mammal specialist and world authority on dugongs and leads the Marine Vertebrate Ecology Research Group at the University of Queensland's School of Biological Sciences. From Australia's dugongs to America's manatees Dr Lanyon's fascinating stories will open our eyes to the world of these whacky much-loved marine mammals. Presently, Dr Lanyon is working on identifying threats to the health of coastal marine mammals and cetaceans along urbanised coasts. She has served on numerous governmental and scientific committees. Dr Lanyon has been underwater diving and spending time exploring and enjoying the natural marine world for over 40 years.
